Step 3

Complete the "Submit A Site" form with your website's details including your website address, name and related tags. Then click the "Submit" button at the bottom of the form.

Submit a Site

Website URL*	<input type="text" value="http://incrediblepress.com"/>
Website Title*	<input type="text" value="Incredible Press"/>
Description*	We publish a wide range of free e-letters and incredible special reports.
Tags of Url (separated by commas)*	newsletters, special reports, ideas, information, money, spiritual, health, wealth, finance, advice, ebooks
<input type="button" value="Submit"/>	

Step 4

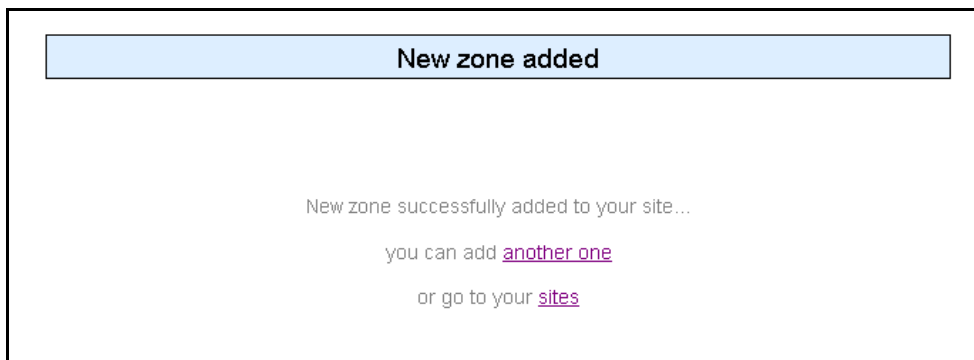

Next, complete the "Submit a Zone" form with the details of **where** the Advertiser's banner will appear on your site, what **size** it will be and the **cost of advertising** on your website and click the "Submit" button.

Submit a Zone

Zone URL*	http://incrediblepress.com/ <input style="width: 150px;" type="text"/>
This is a sample URL where the ads will be running. Most advertisers will want to see what the ads look like on the page before buying. If the ads will be running site wide, just leave this as-is with the "/" (trailing slash).	
Zone Title*	<input type="text" value="Sidebar Banner"/>
Make it descriptive, for example, Sidebar Banners, Header Banner, etc. No need to put the size as part of the name, we ask for that separately down below.	
Location on page*	<input type="text" value="Bottom Left"/> <input type="button" value="v"/>
Approximate location on the page.	
Price(\$)*	<input type="text" value="45"/> .00
This is how much each banner ad will cost. The minimum is \$5.00. Our fee's are 25% of this dollar amount.	
Wide (in pixels)*	<input type="text" value="228"/>
High (in pixels)*	<input type="text" value="90"/>
Each dimension should be at least 2 digits and no more than 4 digits long. If you would like to use standard IAB sizes check this out: standard IAB sizes	
Number of Banners*	<input type="text" value="1"/>
This is the number of banners that will be displayed at the same time on your website. This number should definitely effect the price for this ad zone as the more banners you display the lower the click through rate for the advertiser. It is best to keep this low to preserve the quality of the ad zone.	
MAX Number of Banners*	<input type="text" value="1"/>
This is the MAXIMUM number of banners that will be sold for this ad zone. Publishers are more likely to buy if this matches the number of banners that display at the same time (above).	
<input type="button" value="Submit"/>	

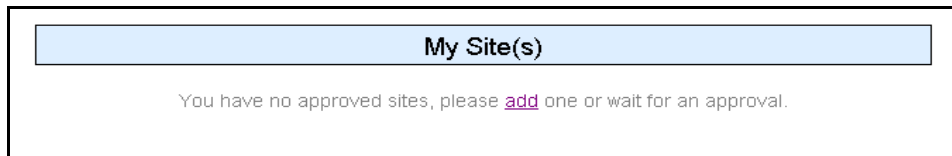

Step 5

After submitting your site, you will see our **confirmation page** (as seen below). You can immediately **add another site** or **view** your successfully submitted sites by clicking the corresponding links.

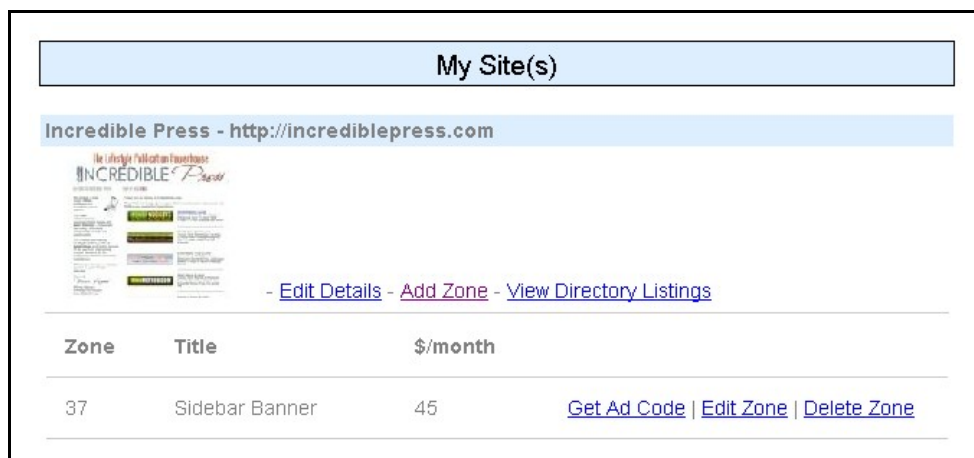

IMPORTANT: All sites are **manually reviewed** for quality and acceptable content before being made active in our searchable directory. **This process usually takes less than 24 hours** (often within just minutes of your submission).

If you try and view the site(s) in your account before they have been approved you will see the following message:

Step 6

Once your site has been approved, (a few hours) click on the "**My Sites**" menu item (in the left navigation bar) and you will be able to see your website listed in your account.

Step 7

Click on the "Get Ad Code" link to get the banner code that you must **paste on your website** where you want the banner advertising to be sold on your website. (The "Get Ad Code" link is found at the bottom right of your site profile - see the image above).

Simply **copy and paste** the code from the box you will see into your existing website.

Zone Code

```
<script type="text/javascript">
ShowAdHereBanner = true;
ttime = Date.parse(new Date())/1000;
document.write('\<script src="http://advoyager.com
/index.php?step=show_banner&zid=37&t='+ ttime +'
type="text/javascript">\</script\>');
</script>
```
